

Creels 2023 Mid-Summer Quick Update

Dear Friends,

Greetings from Cambodia! We hope you are doing well.

As summer is winding down, we just want to give you a quick update. The past few months have been another busy time. Here are a few highlights, praise and prayer items:

We thank the Lord for helping David and the project team with the construction of the foundation of the new radio tower for our FEBC Cambodia FM station. After several months of planning and working with the engineering team, project management team, and construction crew, the base/foundation of the tower is completed. We thank the Lord that even when rainy season started, the construction crew managed to continue the work of constructing the foundation. The new transmitter building and the new generator building are almost finished. **Please pray for the team as the construction of the tower will start in September.**

Another praise item is a visit to a remote village to meet listeners. A couple of weeks ago, together with our FEBC audience team, we traveled to another province and had a good time of fellowship with the listeners. **Please pray for our audience team as they visit other villages to meet with listeners for seminars, Bible courses, etc.**

We would appreciate prayer for a couple of other matters. **Please pray for David's health as we visit a doctor to check a couple of suspicious spots on his skin.** With limited medical service for skin cancer screening/treatment in the country, we plan to travel to Singapore, Lord willing, from August 27-September 7th for evaluation and possible treatment/surgery.

Another prayer request involves the repair of our radio station's transmitter. A few weeks ago, our station went off air due to a damaged part in the transmitter. David is communicating with the manufacturer (Nautel) to get some parts. Currently, we are using an old, back-up transmitter with low power. Some listeners outside the city have called our station asking why our signal has decreased. Again, we would appreciate your prayers for David and our tech team for wisdom as they make repairs to the main transmitter. Although our programs are still broadcast through social media and online streaming, the FM transmitter is still needed to reach many people. **Please pray for the restoration of the radio transmitter to full power so that more people will hear the words of encouragement and the Good News of salvation.**

Thank you for your continuing support and prayer for our ministry. Our Lord Jesus bless you!

David & Vicki Creel

"For the LORD is good; His mercy is everlasting, and His truth endures to all generations."
Psalm 100:5 (NKJV)
